Trustees Appoint Committees For Campus Project

The Greater York College campaign committee and four sub-committees were created by the executive committee of the college trustees at their recent session.

Bishop V. O. Weidler of Kansas City, is the chairman of the campaign committee. Dr. S. B. Williams of Kansas City, Dr. O. T. Deever of Dayton, Ohio, Pres. D. E. Weidler, Dean Walter E. Bachman, Mr. E. A. Levitt, Mr. J. R. McCloud, and Mr. Russ Williams of York, form the nucleus of the committee. Other members may be added later.

The members of the prospectus committee are Pres. Weidler, Dean Bachman, Dr. Williams, Mr. Russ Williams, Dr. I. Lynd Esch of Los Angeles, and Rev. M. B. Canon, director of public relations for the college. The accreditation committee consists of Pres. Weidler, Dean Bachman, Rev. Canon, Dr. Deever, and Mr. Levitt.

The Southwest Episcopal District and the Pacific Episcopal District each have a promotion committee consisting of the bishop and his superintendents. The committee for the Southwest district is Bishop Weidler, Rev. A. E. Moore of Enid, Okla., Rev. C. H. Crandall of Kansas City, Mo., Dr. C. V. Priddle of Wichita, Kansas, Dr. G. E. MacCanon of Des Moines, Iowa, Dr. A. P. Vannice of York, and Dr. Maurice Nichols of Denver, Colo.

In the Pacific district, the committee is Bishop Ira D. Warner of Pomona, Calif., Dr. H. H. Heberly of Los Angeles, Rev. A. V. Howland of Great Falls, Montana, and Rev. R. C. Mann of Portland, Ore.

In the future two additional committees will be created. They are the alumnae committee and the special gifts committee. The plans submitted by Mark S. Sharp, of Kansas City, have been referred to the campaign committee for study. The committee will report at a meeting set for December 7.

Recruits Hear Letter From African Mission

Miss Irene Shipley, of the speech department, read "The Old Rugged Cross" by Samuel R. Davenport, and Martha Cox, sophomore, Espanola, New Mexico, African Project chairman, read excerpts from a letter from Miss Waveline Babbitt, a West African missionary, at the Life Work Recruit meeting Monday, October 11.

In her letter, Miss Babbitt included letters from African girls at Hartford School, Sierra Leone. Miss Babbitt is the student missionary from Indiana Central College.

Thelma Rockhold, sophomore, Salina, Kansas, led the group in thinking of our greatest of Friends as she presented the devotions. Irene Falk, sophomore, Stromsburg, Nebraska, and Dollie Anderson, sophomore, Albuquerque, New Mexico, sang "Shepherd of Love."

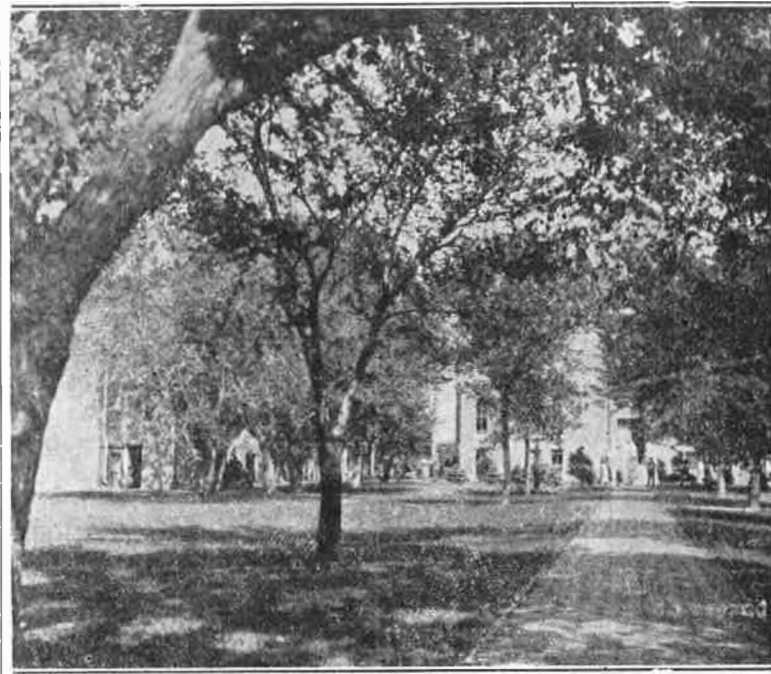

The Life Work Recruit meeting was moved from Wednesday to Monday night to enable the church choir to practice at 7:15 on Wednesdays.

HASTINGS PRESIDENT VISITS

Dr. William Marshall French, eighth president of Hastings College located at Hastings, attended a formal chapel service here recently.

Dr. French was attending the 70th annual session of the Presbyterian synod of Nebraska which was held here in the Presbyterian Church.

A Campus Scene

Recruits Send Gospel Teams

Gospel teams sponsored by the Life Work Recruits have held services in several churches recently.

J. W. Tomlinson, sophomore of Enid, Oklahoma; Oren Reger, freshman of Julian; Ruby Grandon, sophomore of Burrton, Kansas; Blanche Leach, junior of Clarks; and Margaret Trout Phillips, senior of Culbertson, composed a team at the Methodist Church in Bradshaw October 3.

Dr. E. I. Doty of the political science department spoke on China following a fellowship dinner at the church at noon. Mrs. Phillips sang "Prayer" by David Guion, accompanied by Mr. Reger, who also played variations on well-known hymns.

J. W. Tomlinson spoke at the evening service. Miss Leach read the scripture, Miss Grandon offered prayer, Mr. Reger played "Work For The Night Is Coming," and Mrs. Phillips sang, "I've Done My Work" by Carrie Jacobs-Bond. Fred Gaston is pastor of the Bradshaw church.

Dorothy Whitacre, freshman, Polk, played a violin solo, "Hold Thou My Hand" by Briggs, accompanied by Oren Reger, at the Council church October 17. J. W. Tomlinson is pastor at Council.

Reva Mae Allen, freshman, Washita, Iowa, Marjorie Thornton, freshman, Billings, Montana, and L. Boilesen senior, Cotesfield, went to Strang October 24 with Mr. and Mrs. Everett Tracy. Miss Allen sang, "In the Garden of Tomorrow", by Deppen, accompanied by Miss Thornton. Mr. Boilesen led the devotions and Mr. Tracy preached the sermon.

Sings For Circle

Margaret Trout Phillips, senior of Culbertson, sang "God Remembers When the World Forgets" by Carrie Jacobs-Bond at the Presbyterian Circle at the home of Mrs. George Holdeman Thursday afternoon, October 21.

Ruth Wren, sophomore, Woodston, Kansas, accompanied Mrs. Phillips at the piano.

ENTERTAIN SOLDIERS

A group of soldiers from the Fairmont Air Base was entertained recently by some of the women living at Hulitt Conservatory.

As the weather was not favorable for the picnic which had been planned, the group met in the dining hall of the conservatory. After the picnic supper, the evening was spent in playing old-fashioned games and group singing. Special guests were Dean and Mrs. Walter E. Bachman.

Graduates Present Program Here

Bertha Riggs, '41, accompanied by Hazel Morgan, '39, presented a voice program in chapel Monday, October 25.

The program consisted of "Caro Mio Ben" by Giordani, "Rugliadose odorose" by Scarlatti, "What's In the Air Today?" by Eden, "My Friend" by Malotte, "Tales From the Vienna Woods" by Strauss-LaForge, "The White Swan" by Charles, "Will-o-the-wisp" by Spross, "Prelude in March" by Rasbach, "A Heart That's Free" by Robyn, "Ernani, Ernani Irvakni" from "Ernani" by Verdi and "Comin' Thru' the Rye" by Kingsford.

Miss Riggs is working in Denver and is also studying music there. Miss Morgan has been employed in Denver but plans to return to Boulder to resume her work on her master's degree.

Dean Explains Equipment For Dominant Purpose

"Jesus had a dominant purpose in life but was delayed many times. We must pursue our dominant purpose but there are times when we must perform duties that do not pertain to our aim," began Dean Walter E. Bachman in his address before the Y. M. C. A.

The equipment to meet the duties of life and the demands of a dominant aim is a clean body, a trained mind, a pure heart, willing hands, an exalted purpose, and faith, stated Dean Bachman.

The Dean encouraged in conclusion, "No matter how humble or how big a place we fill in life, remember, there is not enough darkness in all the world to put out one small candle."

Graduate Is Glider Pilot Instructor

Lieut. Alfred Kamm, son of Mr. and Mrs. Harry Kamm of Platte Center, and a graduate of York College, has been promoted from the rank of flight officer to that of lieutenant at South Plains Army Air Field at Lubbock, Texas.

Lieut. Kamm is a glider pilot instructor at SPAAF, and helps train men in Uncle Sam's giant cargo and troop carrying gliders.

He is a graduate of Platte Center High School. He received his degree at York College in 1941.

His wife is the former Anna Jane Easterling of Enid, Oklahoma.

Executive Committee Meets; Hears Report of Architect

Convention Meets For Worship Here

"Light in Darkness" is the general theme for the State Christian Endeavor Convention being entertained by the United Brethren Christian Endeavor Society of York. The convention began October 28 and closes tonight. Rev. Allen Martin, pastor of the Christian Church at Kearney, gave the opening address.

"Let's think together about the light that comes from personal devotion, public worship and service" was the topic of the discussion group led by Rev. G. T. Savery, United Brethren Church, York, President D. E. Weidler, York, and Rev. D. R. Roker of the Evangelical Church of Kearney.

Thursday evening Rev. William Hage of the Presbyterian Church, York, presided as toastmaster of the convention banquet.

A panel discussion followed on the subject, "When the lights go on again", led by Rev. Franklin Cody, pastor of the United Brethren Church at Seward.

After the evening session a mixer was given at the Christian Church.

The general theme for today's program is "Developing a program of society." A discussion on materials will be directed by Rev. E. D. Freeman, pastor of Fairview Presbyterian, pastor of the Fairview Presbyterian Church of Omaha. Mrs. John J. Weber, editor of the State Christian Endeavor paper, will lead the discussion on activities. The discussion on recreation will be led by Rev. Cody.

In the afternoon, Mrs. Weber is to conduct a Christian Endeavor fox-pop on the history and present activities of Christian Endeavor.

The singing of the convention is in charge of Dean Charles Adon of the York College music department. The accompanists are Oren Reger, freshman of Julian, Miss Eda Rankin of the college music department, and Maurine Marvel, junior of Giltner.

PALS Hold Hallowe'en Jamboree

Ghost stories, Hallowe'en music, and a report on superstitions constituted the entertainment at the PALS Hallowe'en Jamboree, October 19. Freshmen and new students were guests at the meeting.

Roberta Bergin, sophomore of Berthoud, Colo.; Martha Cox, sophomore of Espanola, N. Mex.; Margaret Trout Phillips, senior of Culbertson; and Bruce Herrick, senior of Dayton, Ohio, took part on the program.

Punch and decorated cookies baked by Miss Mary Alice Slee, faculty critic, and Juanita Sanders, sophomore of Vancouver, Wash., were served.

VISITS CAMPUS

Pfc. Marvin Garlock, ex-'44, visited his wife and sister, Loraine Garlock, '44, here recently. Garlock has just completed a radio electrician course at Fort Knox, Kentucky.

Upon returning to his home camp, Camp Campbell, Kentucky, Garlock's rating will be T-5. Garlock is to be moved so no address will be given at present.

Summer's passing means we have gotten rid of a lot of blood relations—mosquitoes.

The younger generation's great mistake is that it has learned things too readily from the older.

The executive committee of the trustees of York College assembled recently to hear the report of Mark S. Sharp, architect of Kansas City, Mo., concerning plans for a greater York College.

The present needs of the college are a heating plant, to release space in the library building, and a women's dormitory. The architectural plans also call for future buildings, namely, a science building, a fine arts building containing a chapel, a gymnasium, and a student union building.

The new buildings will be designed according to the principles of Georgian colonial architecture. They will be built of red brick with a white trim. The library and Hulitt Conservatory are to have new fronts built to agree with the architectural style of the new buildings. The roof of the administration building is to be remodeled also.

Committee members attending this session were Rev. C. H. Crandall of Kansas City, Dr. O. T. Deever of Dayton, Ohio, Dr. G. E. MacCanon of Des Moines, Rev. A. E. Moore of Enid, Okla., and Dr. S. B. Williams and Bishop V. O. Weidler of Kansas City. The York members of the committee were J. R. McCloud, E. A. Levitt, Russ Williams, Dr. G. T. Savery, Dr. A. P. Vannice, Nels Hammar, and Pres. D. E. Weidler, chairman. Two of the out of town members were unable to attend.

Otterbein Guild Studies Need Of Literature

"Today is ours in which to share the light of the world," was the leading thought in the message presented by Martha Cox, sophomore, Espanola, New Mexico, at the Otterbein Guild meeting October 14.

Juanita Sanders, sophomore, Vancouver, Wash., directed the evening's program. The necessity of supplying literature to less fortunate nations than our own was the subject matter of the program.

Irene Falk, sophomore, Stromsburg, sang, "God of Grace and God of Glory," accompanied by Mary Miller, junior, Dawson. The group planned to have a Thanksgiving breakfast the Sunday preceding Thanksgiving. At the close of the meeting, cocoa and cookies were served by Mrs. G. T. Savery, the hostess.

LEAVES FOR TREATMENT

Miss Gladys Pearson, of the music department, left recently for Rochester, Minn., where she will receive medical treatment for her eyes. Miss Pearson is on a leave of absence.

W. A. A. SPONSORS SKATE

The W. A. A. is sponsoring a practice skate on Thursday afternoons from 5 to 6 o'clock. All college women are invited to attend.

Basketball is the main feature on Tuesdays from 5 to 6.

SHARES BIRTHDAY CAKE

Mrs. J. C. Morgan, teacher of the College Women's Sunday School class invited the class to her home Tuesday evening October 19, to share her birthday cake. The cake was a gift from Miss Gladys Pearson. Mrs. Morgan also served ice cream.

The members of the Sunday School class gave Mrs. Morgan a card shower in honor of her birthday.

They Tramped These Paths

Emerson says that if you build a better mouse-trap, the world will beat a path to your door.

No one living at Hulitt Conservatory or attending the college has been building better devices for trapping vermin, but the paths have appeared anyway.

Year before last one path was converted into lawn. Last spring another path was seeded. Now the path to the "Con" is receiving treatment. Nine loads of dirt cover the path, which was spaded. This spot will be seeded and next spring it will be green instead of brown. —M. G.

Shortage of men doesn't mean shortage of clothes. For your fall clothes, see your men's clothiers—Russ Williams.

**Dean Speaks
 York College Meets Need
 Pre-Seminary Training for Ministers**

Pre-Seminary Students of the Classes of '42 and '43

York College, as a Christian institution of higher education of the Church of the United Brethren in Christ, offers to young men and young women the opportunity to study in a liberal arts college which stresses not only the educational development of its students, but also a well-rounded character, and emphasizes the religious as well as the many other wholesome aspects of college life.

The Christian ministry is a supremely important field of service. Christian lay leadership is also of paramount importance in the Christian program. The purpose of York College is to provide a strong pre-seminary college course for those students who plan to enter the Christian ministry, and, at the same time, to provide for all other students of the college the opportunity to secure training which will prepare them for intelligent Christian lay leadership while they are pursuing the cultural and pre-professional courses designed to fit them for their chosen professions and vocations, such as: doctors, nurses, lawyers, engineers, business men, musicians, teachers, and homemakers. This article is concerned with the Christian ministry. In the next issue of the *Sandburr*, training for Christian lay leadership will be discussed.

Young men of ability and with Christian faith, experience, and conviction will do well to consider the great need of trained ministers for leadership in local churches in the present day and in the world of tomorrow. In order to be a doctor, for example, a student

his life work, he will find it helpful to survey the normal functions, duties, and opportunities of ministers. In general the work of the Christian minister is six-fold.

1. The minister is expected to be an acceptable preacher. In these days of educational opportunities and specialized training, it is exceedingly necessary that the minister be a highly educated man who can win the confidence and maintain the respect of the members of his congregation. It is the minister's task, through his teachings and public utterances, to present the Christian message in such an intelligent manner that thoughtful people will be led to accept Christ and to live in harmony with Christ's teachings.

2. The minister is expected to be a teacher of youth. He is called upon to minister to the whole church, including all age levels of children, young people, and adults. Only in a relatively few churches is it considered possible to employ a paid director of religious education. Therefore the minister must serve as pastor-director. In this capacity he must maintain a system of leadership training for Christian lay leaders and guide growing youth.

3. The minister is expected to be a leader of worship. It is the function of the minister not only to teach the people about God and about the ways of the Christian life but to lead them into the very presence of God; that through the experiences of public and private worship they may learn to know God as a spiritual

6. The minister is expected to be a pastor. As a shepherd of the flock, he is continually called upon to be the counselor of men, women, and children, in their personal problems, their difficulties, their duties, and their joys.

How are the courses offered by York College contributing to the preparation of men for the ministry? The statements, appearing in the *Sandburr* from time to time, concerning the various departments of instruction in York College, will aid readers to find an answer to this question. Here are some added suggestive hints. Courses in English lead to an acquaintance with the best in literature; they aid in developing skill in expressing one's thoughts in an accurate and beautiful manner; they give a richer understanding of life. Courses in public speaking develop poise and effectiveness in appearing before groups. The classical and modern languages contribute to a better use of one's mother tongue and give breadth of outlook and accuracy in thinking. Music is classed as one of the fine arts and is especially useful in worship and service.

The biological and physical sciences and mathematics provide a wider understanding of the universe and the world in which we live. Since "This is my Father's world", science is fundamentally consistent with religion and should be better understood by religious people. The study of psychology leads to an understanding of people, and therefore is of primary importance to those who must daily deal with people in many walks of life. Studies in sociology, government, economics, history, and education furnish a necessary understanding of civilization, interpret the nature and function of society, and provide the foundations and methods of stimulating and guiding a progressive development of a higher type of civilization. Religion and religious education are rightly placed at the heart of a system of ministerial education, with the aim of presenting the Christian religion with clarity and conviction. The purpose of philosophy is to help students "to see life steadily and see it whole". The total life and program of the college as well as the departmental interests and specializations are essential aspects of a complete system of ministerial education.

Although the education of Christian ministers requires the foundation of a college education, the distinctly professional training for the ministry is offered by the theological seminary. It is in the seminary that ministerial students are given instruction in the

The Editor Reflects

Store Knowledge Today

The trees are dressed in their fall colors now. Soon the leaves will drop and apparently the trees will be lifeless.

Down deep under the ground the trees have stored energy to withstand the blast of winter. When spring comes they will be beautiful again.

Sometimes it seems that college is a period of marking time because there is an urge to be doing something in the business world.

College is the place to store things deep in the mind. These facts and theories will be used and appreciated in later life, a life made radiant and abundant by use of knowledge gained in college.

YOUR DARK EYES . . .

Biological Sciences Intrigue

(By Winifred Smith)

The study of nature lore has the longest history of any subject still taught in modern schools. Before men began to philosophize or read or write, they learned to recognize the animals and plants which were placed with them on the earth. The study of the biological sciences has developed greatly since the beginning of history, but it is a direct descendant of that of ancient days.

The importance of the field of the biological sciences is recognized when we find that botanical studies are foundational to agriculture, gardening, and an appreciative study of flowers; and that zoology lays the ground work for the study of medicine.

Requirements for a major in this field include twenty-eight hours of the biological sciences, sixteen hours of which must be in botany, invertebrate zoology, and comparative anatomy. A minor includes the sixteen hours mentioned plus two hours in some elective course in biology. One year of chemistry or physics is recommended for biology majors.

Some majors in this department who are now successful professional and business men are Lyle Newton, who has been given special government training in internal medicine and surgery, and who is now in the U. S. Navy; John G. Davidson, editor and publisher in Jasper, Minnesota; Mae Turner Prentice, the first woman to major in the department of biological science; Grant Sterner, superintendent of schools in Cordova, Nebr.; Leo Anderson, who now has a fellowship at the Mayo Brothers' Clinic.

Russell Lewis, instructor at the Santa Monica Junior College in California; Lucille Hall Schmidt, magna cum laude graduate, who has taught in several Kansas high schools; Barney Rees, also a magna cum laude graduate, medical student in the University of Nebraska at Omaha; George Chambers, medical student in Iowa State University, Iowa City; Virgil Shickell, pastor in Iowa; Gerald Dierdorff, medical student in Still College of Osteopathy in Des Moines, Iowa.

Kenneth Willits, teacher in the high school at David City; and Jarvis Cobe, Walter Eckdahl, Wesley Fredrickson, Henry Hansen, Ralph Jordan, Hugh Pursel, Robert Ratzlaff, Harold Windsor, and Al Zerwekh, all serving with the United States armed forces.

The courses in this department which are, by student vote, the favorites are embryology, which treats of the developmental changes in the growth of organs; bacteriology, which teaches by practice and theory methods for determining the types of bacteria, both pathogenic and non-pathogenic, which grow on different media; and genetics, which deals

Dr. W. C. Noll

with inherent traits, with particular application to the family of each student. Most of these courses and others in the department are taught by the lecture method.

Among the microscopes, preserved specimens, forceps, scalpels, dissecting pans, etc., are three articles of equipment of which we seldom think but which have made a very interesting addition to the department. These are the kymograph, which records diagrams of the activity of the muscles; the cardiograph, which records diagrams of the heart activity; and the pneumograph, which records breathing activity.

If you were to have listened to student conversations during laboratory periods for several years, you would have found that when a chick's egg is broken open and the embryo is exposed, the first thought which the students utter, is usually, "Oh, the heart beats." Then the puzzle of identifying minute bacteria, which, at best, can only be identified under a microscope somewhat vaguely, has always been and probably always will be present with bacteriology students. One of the most interesting happenings in the zoology laboratory every year is the finding of embryo fish with part of the egg attached to their bodies.

Dr. W. C. Noll, jovial head of the department of the biological sciences and also a capable civic and church leader, raises exhibition Buff Orpington chickens as a hobby. He has won many premiums for his chickens at the Nebraska State Fair. In addition to his other duties and interests, Dr. Noll has a garden containing choice varieties of peonies. In May, 1943, Dr. Noll received his Doctor of Philosophy degree in the field of biological science from the University of Nebraska. In October, 1943, he had the honor of being elected Grand Master of the Independent Order of Odd Fellows of Nebraska.

Student assistants in the biology laboratories are Fred Gaston, junior of Oklahoma City, Okla., who directs the zoology laboratory, and Esther Megill, sophomore of York, who directs the botany laboratory.

Whatever it may be, it's Russ you want to see—for men's clothing.

Williams' wearers welcome winter without worries — Russ Williams.

Upper Classmen Win Class Contests

A party will be given the upperclassmen by the freshmen as the result of the freshmen-upperclassmen contests. According to tradition, the losers entertain the conquerors. As yet the freshmen have not set a date for the party. The outcome of the contests was as follows:

The upperclass women won the freshman-upperclass basketball game with a score of 20-8. The game was played Thursday afternoon, Oct. 25, in the gymnasium. Winifred Smith, senior of Enid, Okla., was the high scorer for the upperclass team, and Lois Deal, Ames, Iowa, made most of the freshman baskets.

The Upperclass men won the upperclass-freshmen basketball game by the score of 46 to 40. LeRoy Bott, junior of Alexander, Kansas, paced the upperclass men with 27 points. Denny Auchard, freshman of Woodston, Kan., was high point man for the freshmen with 21 points.

The freshman class took the lead in the field events.

- Men's soft ball throw: Upperclass 6, freshmen 3
- Women's soft ball throw: Upperclass 1, freshmen 8
- Men's football throw: Upperclass 1, freshmen 8
- Men's football kick: Upperclass 1, freshmen 8
- Men's 60 yd. dash: Upperclass 5, freshmen 4
- Women's 40 yd. dash: Upperclass 5, freshmen 4
- Men's shuttle relay: Upperclass 9
- Women's shuttle relay: Upperclass 9
- Tug-of-war: Freshmen 15
- Total: Upperclass 67, freshmen 50.

Press Guild Elects Officers

Officers were elected at the first meeting of the Press Guild held at the home of Prof. Edith Callender, faculty adviser of the Sandburr.

Margaret Gaston, junior of Oklahoma City, Okla., editor, is president, according to custom. Blanche Leach, junior of Clarks, was elected vice-president.

The remaining officers are: secretary, Fred Gaston, junior of Oklahoma City, Okla.; social chairman and treasurer, Winifred Smith, senior of Enid, Okla.; and

Three State Champs Return

W. Kaeding

LeRoy Bott

"Doc" Hartman

The basketball season looks bright at York College as three of the state champs return to lead the 1943-44 cagers.

Wayne Kaeding, high scoring all-state forward, is York's greatest hope this year. Last year, Wayne was the offensive spark of the champs and was the high point man of the conference. In his roll of student coach and player, Wayne is hopeful of leading a winning team for the college. He is a senior from Benedict.

librarian, Margaret Trout Phillips, senior of Culbertson.

Cake and sherbet were Miss Callender's treat to the Press Guild for this year.

At the next meeting, a news story with a salient lead and news briefs were discussed by Blanche Leach and Esther Megill, sophomore of York. The Press Guild voted to send flowers to Miss Callender, who is ill.

Coach Kaeding will have plenty of scoring aid from a fast breaking forward, LeRoy Bott, junior from Alexander, Kansas

The other of the three returning state champs is a hard playing guard, "Doc" Hartman, senior of Lecompton, Kansas.

Among those expecting to see action with these returning first stringers are: Denny Auchard, freshman forward of Woodston, Kansas, and Roy Livermore, freshman guard of Santa Cruz, N. Mex. —F. G.

York College Dining Hall

HULLITT CONSERVATORY

They Tramped These Halls

By PROF. J. C. MORGAN

Major John Clifford Bisset is post engineer, a very necessary official, at the Borden General Hospital, Chickasha, Oklahoma. Major Bisset looks after the maintenance of utilities, buildings, grounds, and everything necessary to make the hospital a smooth running, efficient, and pleasant place to work. He has had experience in every kind of civil engineering. He has served as contractor's engineer, assistant state engineer, city engineer, and assistant director of public works. Major Bisset has been in charge of irrigation works, earthen dams, levees, constructing sea-walls, water mains, filtration plants, storm sewers, and air ports.

His military experience began in 1918. He served as 2nd Lt., 1924-27, was commissioned a major in the Reserve Corps of engineers, July 20, 1942, and assigned to his present position August 9 of the same year.

Major Bisset received his education at York College and at the University of Kansas. He is affiliated with the American Society of Civil Engineers and the National Society of Professional Engineers. He is the son of Professor and Mrs. Charles Bisset and was born at Leocompton, Kansas. Major Bisset has just been transferred to the New Orleans Port of Embarkation.

A welcome letter is received from Mr. Carl Sutherland of the class of 1911, Campbell College, who at the time of writing was at Excelsior Springs, Mo., for treatment, but was planning to return soon to his home at Chariton, Iowa. Carl was a missionary for many years in South America, but ill-health compelled him to return to the United States. He has three sons in the armed forces. He would be glad to hear from former friends.

Eloise Speaks Impromptu
Recently Eloise Tabor, '43, and the other member of her recruiting team were invited to a Rotary luncheon. Eloise was to make the speech, but when the other member was introduced she was asked by the chairman to say something, which she did using the things that Eloise was going to say. As Eloise writes: "You know

me—seldom at a loss for words. I managed to give an impromptu talk, and enjoyed it."

With the Armed Forces
Nelson Ronne, '39, of Fort Leavenworth, Kans., Fred Novak, '42, of the same fort, Milton Maurer, '35, of Camp Rucker, Mo., and Robert S. Morgan, ex-'43, of Morena Field, Tucson, Arizona, have been recent campus visitors.

New addresses are: Everett W. Berry, Gainsville, Texas; Maurice Herrick, '40, Lyndhurst, Va. He is now "chief cook". Ensign Everett Green, '36, is in New York City and Captain Floyd Gifford, ex-'42, is now overseas. We are indebted to Lt. Ralph W. Doremus, Camp McCain, Miss., for some of these addresses. Other addresses are: LeRoy Webb, ex-'46, Iowa State College, Ames, Iowa; and Daryl Severin, '43, University of Arizona, Tucson, Ariz.

Ellsworth Carlson, ex-'41, who is teaching agriculture at Fullerton was a campus visitor on the 16th.

Dorothy Garland, ex-'42, who recently graduated from Nurses' Training School, has taken the state examinations and has received the degree of R. N.

In the write-up of the classics department last issue two names were overlooked of those who have majored or minored in that department. Prof. Harold De Wolf, ex-'24, of Boston University and Rev. Albert Murdoch, pastor at Miller, Nebr. If other names were overlooked it is because college professors are proverbially absent minded, an allegation which of course, they vigorously deny.

Births
To Mr. and Mrs. F. A. Smith (Ocie Moran, '39) a daughter, Rosalie, September 2. The address of the parents is Alamosa, Colo. The Smiths expect to move to Texas where Mr. Smith will be engaged in some form of railway service.

Marriage
Mrs. Lena Caldwell, '02, to Rev. C. E. Spore, of Amherst, Nebr., on September 28.

Golden Jubilee Fund

The Book Mark

By Maybelle A. Taylor
The Sandbur staff has invited the library to run a column in each issue of the paper; and here we are all gathered together for the christening. But hold up the festivities a moment—we can't proceed until we find a name. What will we call it, "Anyhow"? What about "The Bookworm"? Ho! Hum! Doesn't that create the picture of a sissy in shell-rimmed glasses? Do you think "Book Dust" might do? Oh, dear! That would probably have a touch of humor for someone who has found it literally true some time. "Between the Lines"—maybe, huh? Wouldn't that be better for a tattler column? "Book Notes", "Book News", "Library Corner"—? All a shade trite; n'est-ce pas? . . . (The pause that refreshes.) . . . Oh, I know—let's call it "The Bookmark", and every time the paper comes out, the librarian can just share with everyone whatever her marker happens to be in at the moment. Let's try it that way and see how it works.

O. K. Well, what's the marker in today?

"Did I hear a chuckle from the loan desk where Margaret Gaston was talking with the librarian?" "Just between you and me, I think you did. Could be, that big blue book they were discussing is going to get its name in the paper this week. What is the title on it? Can you see?"

"Yes, It's THESAURUS OF HUMOR by Knapp. A book of jokes, to you."

"Do you think we would be getting a bit nosey, Bub, if we read a few whilst the librarian searches the shelves for our books?"

"I'll risk it. Let's read where the markers are—"

Do you know the Arthur song? No, what is it? Arthur any more at home like you?

(A robust woman lost her thumb in a trolley accident). But why do you think your thumb was worth \$20,000? Because it was the thumb I kept my husband under.

When he dies, he's threatened to come back and haunt me. He'll not do that. Why not? Oh, 'cause he hasn't any haunting license.

Who is that man over there? He annoys me. He's my cousin—once removed. Well, remove him again.

Since I met my new girl I can't eat, I can't sleep, I can't drink. Why not? I'm broke.

"Here she comes. I am going to see if I can check this book out. It will save wear and tear on my brain, thinking up stories to use in my toast for the banquet."

"That's an idea. Did you notice that all the jokes on one subject are together and there's an alphabetical index in the back so a person can find things in a hurry?"

"Swell; and it gives some hints in the front on how to tell a story to put it over."

"When you get through with it, I wish you'd give it to me. I'd like to read it just for fun. With the war on and everyone under such pressure, a person is looking for something to keep up the old morale."

"Isn't that the truth? And they says, 'He who laughs, last!'"
